

Grays Harbor County Coastal Futures Project: Scenario Review and Initial Results Meeting

18 April, 2017 (4:00 pm – 7:00pm)

Grays Harbor College, Schermer Building (Room 4134)

Meeting Objectives:

1. Review scenarios and initial results from Grays Harbor Coastal Futures Envision model
2. Discuss initial results and plan for future work
3. Give KTAN participants a chance to network

Agenda:

- 4:00 – 4:15 Welcome and Introductions (light snacks provided)
- 4:15 – 4:25 Meeting Objectives and Revisiting the Envisioning Coastal Futures Process
- 4:25 – 4:40 Overview of Policy Scenario Narratives and Climate Change Scenarios
- 4:40 – 6:00 Review of Initial Results – Poster Session on Grays Harbor Coastal Future ‘Storylines’
- 4:40– 5:00 Summary of the ‘Storylines’
 - 5:00 – 6:00 ‘Storyline’ Poster session
 - **1. What is clear/unclear about this information?**
 - **2. Are we making correct assumptions? Do you have knowledge or information that supports or contradicts these assumptions?**
 - **3. How would this information be used in decision making? Or how could it be useful/improved and what additional questions should we be asking?**
- 6:00-6:45 Reconvene for group discussion
- 6:45- 7:00 Meeting Wrap-up and Next Steps
- 7:00 Networking

Project/Meeting Overview:

This is the third meeting of a new project aimed at ‘Envisioning’ Grays Harbor County coastal futures. The work is funded by the NOAA Climate Program Office (via the Climate Impacts Research Consortium, <http://pnwcirc.org/>) and our primary goal is to develop a collaborative team of stakeholders, researchers, and outreach specialists to co-produce knowledge for informing climate resilient strategies for dealing with coastal flooding and erosion hazards. More information on this project, and materials from the first two meetings can be found at (<http://explorer.bee.oregonstate.edu/Topic/GraysHarbor/ProjectOverview.aspx>).
