

Grays Harbor County Coastal Futures Project: Recap, Results, and Next Steps Meeting

09 April 2018 (4:00 pm – 7:00 pm)
Grays Harbor College, Schermer Building (Room 4134A)

Meeting Objectives:

- 1. Recap scenario development and modeling process**
- 2. Present and discuss modeling results**
- 3. Continue transforming information into usable knowledge**

Agenda:

4:00 – 4:30 Introductions and recap of how policy scenarios were developed

4:30 – 5:30 Storylines Poster Session

Please Consider:

- What questions do you have?
- What do these scenarios make you think of for the future for Grays Harbor?
- How will this information help move the Grays Harbor Community forward with ongoing efforts, conversations, and other coastal resilience initiatives?

5:30 – 5:40 Break

5:40 – 6:30 Poster Session Summary

6:30 – 6:40 Structured Debrief part 1: Visual timeline of the project

6:40 – 6:50 Structured Debrief part 2: Project/process debrief

6:50 – 6:55 Post-meeting survey

6:55 – 7:00 Close/Final Remarks/Snacks/Networking

RISA
Regional Integrated Sciences
and Assessments

Project/Meeting Overview:

This is the fourth and final meeting of a project aimed at ‘Envisioning’ Grays Harbor County coastal futures. The work has been funded by the NOAA Climate Program Office (via the Climate Impacts Research Consortium, <http://pnwcirc.org/>) and our primary goal has been to develop a collaborative team of stakeholders, researchers, and outreach specialists to co-produce knowledge for informing climate resilient strategies for dealing with coastal flooding and erosion hazards. More information on this project, and materials from the first three meetings can be found at:

(<http://explorer.bee.oregonstate.edu/Topic/GraysHarbor/ProjectOverview.aspx>).
